Stevens County Ordinances and Resolutions Related to Solid Waste

From Stevens County Draft Solid Waste Management Plan:

Ordinance Number	General Ordinance Description
NONE	Ordinance 4-1990: Flow control ordinance requiring disposal of solid waste generated within the county (other than single family and single-family farm burial of own solid waste on own property) at Stevens County facilities.
	Regulation No. 01-1988: Adoption of WAC 173-304 with some modifications.
Resolution Number	General Resolution Description

Note:

Solid Waste Infrastructure in Stevens County

Permitted Solid Waste Handling Facilities in Stevens County – March 2004

Facility Type	Name	Public/ Private	Owner
Municipal Solid Waste Landfill	Stevens County Landfill	Public	Stevens County Public Works
Pile	Stimson Lumber Co.	Private	Stimson Lumber Co.
Limited Purpose/Special Use Facilities	Kettle Falls Generating Station Wood Ash Landfill	Private	Avista Corp.
Transfer Station	Park Rapids Transfer Station	Public	Stevens County Public Works
Transfer Station	Northport Transfer Station	Public	Stevens County Public Works
Transfer Station	Hunters Transfer Station	Public	Stevens County Public Works
Transfer Station	Loon Lake Transfer Station	Public	Stevens County Public Works

Washington State Utilities and Transportation Commission (WUTC) Permitted Solid Waste Carriers in Stevens County (November 4, 2002)

Registered Trade Name of Solid Waste Company	Service Area	Certificate# (G permit)	Tariff #	Collect and Transport: MSW	Collect and Transport: Recyclables	Collect and Transport: Yard Waste	Residential Disposal Rates for Weekly Garbage Service by Container (Monthly charge in dollars)	Recycle Service Charge (When Taken With MSW Service)	Commercial Disposal Rates for Company Owned Containers (per Pickup, Non-Compacted Material)	Referenced Service Level Ordinances
Washington Waste Hauling & Recycling, Inc. DBA Waste Management of Spokane	Southeastern corner of Stevens County	G-237	2	Y	N	N	20 gallon mini-can \$10.00; 32 gallon can \$12.60; 32 gallon toter \$13.85; 64 gallon toter \$19.50; 96 gallon toter: \$25.15; Multi can/unit service up to 6.		1.5 yard dumpster \$19.30; 2 yard dumpster \$22.10; 3 yard dumpster \$28.30; 4 yard dumpster \$34.40; 6 yard dumpster \$47.40; 8 yard dumpster: \$61.20	None Indicated
Notes: None										
Waste Management of Washington, Inc. DBA Waste management of Addy	Greater portion of Stevens County excluding northern end & southeast corner	G-237	4	Y	N	N	32 gallon can/unit \$16.00; Multi can/unit service up to 6 offered.		1 yard dumpster \$17.10; 2 yard dumpster \$21.70; 3 yard dumpster \$26.70; 4 yard dumpster \$31.60; 6 yard dumpster \$39.60; 8 yard dumpster \$47.60	None Indicated
Notes: None										

General Notes

- The above solid waste carrier information is portrayed for **WUTC regulated solid waste carriers only**.
- Categories of solid waste customers defined by the WUTC include: single family residential, multi-family residential and commercial. **Multi-family rates are not depicted here.**
- Categories of commercial solid waste collection service as defined by the WUTC include: "Container Service - Non-Compacted - Company-owned container"; "Container Service - Non-Compacted - Customer-owned container"; "Container Service - Compacted - Company-owned container"; "Container Service - Compacted - Customer-owned container"; "Drop Box Service - Non-Compacted - Company-owned drop box"; "Drop Box Service - Non-Compacted - Customer-owned drop box"; "Drop Box Service - Compacted - Company-owned drop box"; "Drop Box Service - Compacted - Customer-owned drop box". **The only Commercial rates provided here are: "Container Service - Non-Compacted - Company-owned container".**
- According to statute, Washington State cities have the authority to contract for solid waste hauling services and associated billing, or to provide their own municipal collection service. Counties have not been granted this option by the legislature. However, statute does direct the WUTC to require regulated solid waste collection companies to comply with the service levels set in the local solid waste management plan. The WUTC defines the service area and monetary collection rates for private firms that service all county residents, as well as for private firms that service those municipalities which do not provide garbage collection service or contract for such service.
- **Of the 280 cities in Washington, 187 take advantage of their option to contract for service or provide their own service. Consequently, the WUTC regulates the solid waste haulers that service approximately 49% of the state's population.** (This includes 40% of the state's population that resides in unincorporated areas, and 9% of the state's population that resides in incorporated areas.)
- Currently, there appears to be no complete tabulation of solid waste collection rates charged to residents of Washington State municipalities is available, and thus there is incomplete knowledge of the direct economic impacts of solid waste disposal on approximately 51% of the state's population.
- [A Certificate \(or "G-permit\) means the certificate of public convenience and necessity issued by the Washington Utilities and Transportation Commission](#) under the provisions of chapter 81.77 RCW for the operation of solid waste collection companies.
- A tariff names rates for the collection, transportation, and disposal of solid waste, and if noted, recycling and yard waste (a document outlining rates, terms and conditions for providing service.) While the G-permit provides an overall legal description of the geographical area in which a carrier is allowed to operate, a tariff defines rates for services and service areas within the geographical area defined in the G-permit. Further, tariffs define the rates a permitted solid waste carrier charges to its residential, multifamily and commercial customers

Community Litter Cleanup (CLCP) 2002-2003 Grant Cycle: Funding Applied by Task (\$)						Litter Education Efforts, Stevens County, 2002
Recipients	Task: Litter & Illegal Dumps	Task: Education	Task: Tools & Trucks	Total Contract Amount		
Stevens County Public Works	58,225	4,000	—	62,225		Stevens County Public Works oversee 3 litter cleanup programs. The "Community Cleanup" program consists of individuals and organizations that conduct spring and fall cleanups in their communities. The "Adopt a Roadway" program consists of individuals and organizations that sign 2-year contracts to pick up litter on 2 miles of roadway each year. "Clean Teams" consist of individuals, organizations, and community service workers that clean roadways and illegal dumps that are not serviced by the other two programs.

Litter Crew Organization, Stevens County, 2002

County jail crew of from 5 to 10 inmates with supervisor five days per week weather permitting. Same crew used for both litter pickup and illegal dump cleanup. Coordinate with DOT at Adopt a Highway areas. No Youth Corps activity in this county.

- 1) Data used here are gathered from individual facilities and consolidated into a main database from which this spreadsheet is derived. Referral to the actual report forms is suggested in order to resolve questions or before drawing conclusions.
- 2) Facilities which show zero production are for year 2002 only. Production amounts can vary by large amounts from year to year depending on lagoon cleanout operations, etc.
- 3) For the categories related to TRANSPORT TO and RECEIVED FROM, tonnage sums are totaled and reported in parentheses if the sums are different from that reported by the facility. Reasons for discrepancies are varied and need to be investigated on an individual basis if needed.
- 4) The term "ctd." means that the data for the facility is continued in another column where extra lines were used so that additional data could be included.
- 5) WWTP = Waste Water Treatment Plant; STP = Sewage Treatment Plant; BS = Biosolids; LSP = Lime Stabilization Plant; POTW = Publicly Owned Treatment Works.

Stevens County Solid Waste Priorities and Needs for the Near Future:

- Promote and expand group presentations and media advertising regarding waste reduction and recycling
- Encourage businesses and industry to develop and implement waste reduction techniques
- Expand the number of collection sites for used oil, batteries and antifreeze
- Expand the corrugated cardboard collection route
- Explore the feasibility of yard waste composting facilities or land application sites
- Explore the feasibility of tire recycling or chipping
- Explore the feasibility of local markets for mixed glass
- Initiate a paint-recycling program
- Make improvements to the Hunters transfer station
- Continue to own and manage the current landfill
- Process refrigeration units that contain CFC's or direct the public to use the services of refrigeration service center.
- Provide public outreach to clinics and laboratories to educate them about proper disposal techniques

Stevens County's Projected Solid Waste Income and Spending, 1999 (as compiled by Jeff Kelly-Clarke, Director, Snohomish County Public Works)

Spending

Total Spending	Waste Handling*	LF Monitoring	Waste Reduction and Recycling	Moderate Risk Waste	Planning	Administration	Debt Service	Other	Capital Facilities/Closure	To Fund Balance	Operating Budget
\$2,150,000	\$639,000	\$19,000	\$47,000	\$59,000	\$12,000	\$135,000	\$349,000	\$0	\$715,000	\$175,000	\$1,260,000

* "Waste Handling" includes transfer operations

Income

Total Revenue	Fees from Disposal	Other service fees	Dist./city fees	Grants	Interest	Fund Balance	Other
\$2,150,000	\$1,244,000	\$0	\$0	\$179,000	\$12,000	\$715,000	\$0
