MTCA / SMS Advisory Groups continue meetings

Ecology has convened advisory groups to provide feedback on updates to the MTCA cleanup regulation and cleanup portions of the Sediments Management Rule.

The **SMS Workgroup** is meeting Thursday, Jan. 7, 2010, from 10 a.m. to 2 p.m. at the Tacoma Wastewater Treatment Plant. Parking is limited so carpooling is encouraged. The agenda continues discussion of options for addressing human health and background. This includes risk levels, PQLs, and example data from Elliott Bay and the Lower Duwamish.

The next meeting of the **MTCS / SMS Advisory Group** is Monday, Jan. 11, 2010, from 9 a.m. to 3:30 p.m. at the Fabulich Conference Center in Tacoma, Room 104. The agenda includes addressing background concentrations in sediments, soil, and air; institutional controls and periodic reviews; and revisions to cleanup standards based on new scientific and regulatory information.

All meetings are open to the public. Meeting materials (background documents, agendas, etc.) are posted before each meeting. Meeting summaries are posted after being approved by members.

Where do I find meeting materials?

Meeting materials are available on the Ecology web site at:

<http://www.ecy.wa.gov/programs/tcp/regs/2009MTCA/AdvGrpMeetingInfo/AdvGrpMtgSchedule.html>

and
