Subject: I support increased fish consumption rate numbers
Date: Thursday, December 08, 2011 11:07:08 PM

Dear Director Sturdevant and staff,

I eat fish about twice a week and more than the tiny piece shown for "6.5 gm". Washington currently uses inadequate fish consumption rates for water and sediment cleanup standards. The standards should be conservative enough to protect the higher fish consumers such as tribes and subsistence fishers.

Please increase the rates to more accurate numbers.

Thank you.
