Subject: I support increased fish consumption rate numbers
Date: Saturday, December 24, 2011 2:07:25 PM

Dear Director Sturdevant and staff,

Washington currently uses inadequate fish consumption rates for water and sediment cleanup standards. The standards should be conservative enough to protect the higher fish consumers such as tribes and subsistence fishers.

Please increase the rates to more accurate numbers.

Thank you.

In our family, we eat 2.5 pounds of fish per person, per week.
