

ANNOUNCEMENT

Everett Smelter 10 Home Cleanup, Bridgeway
Monday, November 19, 2007

Asphalt Pavement Repair is scheduled for Tuesday, November 20, 2007. Please move any vehicles away from the northeast side of the street by 6:45 a.m.

As part of our restoration after the 10 home cleanup of the contaminated soils from the yards; there will be an asphalt repair contractor on-site. The contractor is scheduled to complete the edge of pavement repairs on Tuesday, November 20, 2007.

In order to complete this work, **homeowners whose properties were cleaned up are asked to not park on their side of the street (northeast side) after 6:45 a.m. on that day.** Parking on the opposite (southwest) side of the street will be okay.

The end of the driveways at 215, 223, and 229 will be worked on,

so vehicles will not be able to come out of these driveways until later in the day. Therefore, we advise owners at these addresses to move their vehicles if they will need them later in the day.

For more information, please contact Jerome Cruz at Department of Ecology at 425-649-7094.
