

EXHIBIT D

Required Permits/Approvals

Although the City may need to obtain permits or approvals to implement their development plan for the Site, at this time no regulatory permits or approvals have been identified as being required for the RI/FS or interim action work being required under this Order. The City must nevertheless meet all applicable, relevant and appropriate laws (ARARs) that apply to the RI/FS and interim action work being required under this Order, including but not limited to the well drilling requirements of Chapter 18.104 RCW.
