

EXHIBIT E- SUBSTANTIVE PERMIT REQUIREMENTS

At this time, no state or local permits or approvals have been identified as being applicable but procedurally exempt under this Section.

Chevron has a continuing obligation to determine whether additional permits or approvals addressed in RCW 70.105D.090(1) would otherwise be required for the remedial action under this Order. In the event either Ecology or Chevron determines that additional permits or approvals addressed in RCW 70.105D.090(1) would otherwise be required for the remedial action under this Order, it shall promptly notify the other party of its determination. Ecology shall determine whether Ecology or Chevron shall be responsible to contact the appropriate state and/or local agencies. If Ecology so requires, Chevron shall promptly consult with the appropriate state and/or local agencies and provide Ecology with written documentation from those agencies of the substantive requirements those agencies believe are applicable to the remedial action. Ecology shall make the final determination on the additional substantive requirements that must be met by Chevron and on how Chevron must meet those requirements. Ecology shall inform Chevron in writing of these requirements. Once established by Ecology, the additional requirements shall be enforceable requirements of this Order. Chevron shall not begin or continue the remedial action potentially subject to the additional requirements until Ecology makes its final determination.
