

Draft Sediment Cleanup Users Manual II Technical Workshop

July 17, 2014 9:00 AM – 1:00 PM

NWRO Department of Ecology (Rooms 1A – 1C)

3190 160th Avenue SE Bellevue, WA

Ecology Attendees: Pete Adolphson, Chance Asher, Dave Bradley, Laura Inouye, Russ McMillan, Teresa Michelsen, A vocet (Ecology contractor)

Purpose of Workshop: This workshop is the first of three to be held on the draft SCUM II guidance. The workshops are intended to be solutions oriented, collaborative opportunities for interested persons to help Ecology resolve specified issues rose during the public comment period. Attendees will actively participate by proposing specific and detailed ideas to help resolve the specified issues and engage in thoughtful discussion amongst colleagues. Ecology will use this feedback to complete the final guidance document.
