Conversation: Listing ID 42355
Subject: 05-Listing ID 42355

Ken Koch,

I have reviewed the above referenced listing and the map showing the listing. This listing is the NPDES discharge point from the former Kaiser Mead facility. The segment shown is actually a 42 inch diameter underground concrete sewer line that discharges into Deadman Creek. Based on this, the listing should be removed as the segment described is not a water body, but rather a discharge pipe.

Best regards,
Bud Leber
