

# Draft 2008 Water Quality Assessment and 303(d) List

## Public Review Comment Form

This form allows you to submit comments or concerns regarding the Draft 2008 Water Quality Assessment and 303(d) List. Please provide as much information as possible in each field. Attach your completed form to an email and send to [303d@ecy.wa.gov](mailto:303d@ecy.wa.gov) or mail directly to: Ken Koch, Washington Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

<b>Name of Person Submitting Comment:</b>	Peg Wendling, Technical Supervisor
<b>Affiliated Organization (if any):</b>	City of Bellingham Dept. of Public Works
<b>Date of Comment:</b>	03/21/08
<b>Listing ID (please list all that apply)</b>	8621
<b>Draft Category:</b>	5
<b>Waterbody Name:</b>	Lake Whatcom
<b>Parameter:</b>	Total Phosphorus
<b>Medium:</b>	Water
<b>Comment:</b> We support the use of a gridded lake locational listing with the realization that studies conducted on the entire lake indicate impairment is not limited to any one specific basin. Activities in the watershed all impact lake water quality and a systematic approach is necessary to meet consistent attainment of water quality goals for Lake Whatcom.
