

The Department of Ecology's Response to:  
Ed Chadd – Streamkeepers of Clallam County (Comment 45)

*“Basis or remarks statements for bioassessments not updated to 2008.” – Streamkeepers of Clallam County*

Many of these comments requested that we edit old 2004 basis statements. We recognize the confusion that this may create. Ecology chooses to leave the 2002/2004 basis statements in as a part of the historical record for this cycle but will consider revamping the basis and remarks strategy in the next assessment cycle.
