Subject: editorial comments re WQP 1-11

Sue,

Following are just some non-substantive editorial items I noted. No need to craft responses to each of these.

Pg 6 of 67, paragraph beginning with "Numeric data..."

Change "...temperature should be s with..." to "...temperature should be shown with..."

Pg 7 of 67, paragraph beginning with "Occasionally,"

Change "...will not used for" To "...will not be used for ..."

Pg 14 of 67, last paragraph beginning with "When there is...."

Change "is" to "are". The sentence is talking about "data" and the word "data" is plural, not singular.

Throughout the document "data is" should be changed to "data are". I know it is common practice to treat "data" as singular, and most people are fine with that, but it's just something I note and try to change when I see it. A global search on "data" might help to check the verb conjugation.

Pg 19 of 67, paragraph beginning with "A waterbody segment will..."

Change "exists" to "exist". Verb refers to "data".

Pg 25 of 67, paragraph beginning with "Bacteria criteria may...."

Delete "will apply" from end of second sentence.

Pg 55 of 67, bulleted section on Metals

Add "of" between "assessment" and "metals".

Pg 57 of 67, section on Toxic Substances, subsection on Endosulfans

A couple places say “endolfan” and need correcting.

Pg 57 of 67, section on Toxic Substances,

In the paragraph beginning with “The assessment of...” make following change, “....water column ~~and~~ or tissue.”
