Conversation: how to adjust a permit when a new 303(d) list is effective.

Subject: how to adjust a permit when a new 303(d) list is effective.

The current permit includes the following provision on page 20.

"Unless the first application for coverage is received after any updated 303(d) list is effective, changes associated with revised 303(d) lists completed after September 20, 2002 will only become effective if they are imposed through an administrative order issued by Ecology."

No such provision is found in the new proposed permit.

A provision similar to the above, (with the date changed to November 4, 2005) should be included following section S6.A.2 on page 35.
