

10-1-15

Dear Director Bellon:

This is to add my name to your long list of farmers expressing great concern about the first draft of the CAFO permit and regulations.

To say this is a bureaucratic overreach is an understatement.

We have seen our state in the last few elections move away from the heavy-handed government dictate approach as Republicans have been gaining more and more seats. Nothing we in the farm community have seen in the last 20 years or more gives us so much reason to get involved in making certain we have elected officials who can and will reign in this kind of agency power grab.

We will be watching the second draft closely to see if you have heard how far this goes beyond anything reasonable. We hope you are listening.

Sincerely,

/Chad Postma, 356 W. Wiser LK Rd.
Ferndale, WA 98248
