Hello Mr. Lubliner,

The Draft Fact Sheet for the proposed imazamox permit should not address the potential effects of imidacloprid, outside of those associated with the potential mixture of imazamox and imidacloprid. Currently, new data is being generated that will better inform potential imidacloprid effects in Willapa Bay and Grays Harbor. The Draft EIS for imidacloprid is the best place to address the potential environmental effects of imidacloprid in Willapa Bay and Grays Harbor. Thank you.
