Subject: From Fritzi re Sierra Club--Japanese Eelgrass Comments-EIS

Kathy,

I realize that I missed yesterdays commentv deadline for the Raymond meeting  
However, I just returned from DC and Sandy late yesterday. I am hoping you will  
register my support for the Sierra Clubs comments.

I am wondering about the Risk assessment , is that now up on line. If so could  
you send me the link.

I am a bit perplexed that your meeting for the public on the NPDES for imazamox  
in Willapa Bay is being held at the same time as the State Weed Board's time to  
take public comment on listing japanese zostera in the rest of Wa. State being  
held in Yakima. I find that objectionable, as you might imagine.

Fritzi Cohen

Dear Ms. Hamel,

Please accept our attached Sierra Club letter regarding the proposed Japanese  
eelgrass EIS.

Sincerely,

Elaine Packard, Chair  
Water and Salmon Committee  
Washington State Chapter Sierra Club
