WATER QUALITY PROGRAM

Jon Jennings – Mosquito Control Permit Comments  
Washington State Department of Ecology  
Water Quality Program  
P.O. Box 47600  
Olympia, WA 98504

Dear Mr. Jennings:

In years past I have called our mosquito control district with concerns about adult mosquitoes. They have helped me out by fogging in my neighborhood. I am concerned that The Mosquito Control Permit that is currently being considered will prevent the district from quickly responding to these problems.

I know the district spends a lot of time and money on larva control and I'm sure this helps, but they never seem to get them all. Mosquito control programs must be allowed to control adult mosquitoes as well. I am asking you to reword the permit so that we can continue to have adult mosquito control when needed.

We expect our mosquito control district to respond when we call with a mosquito problem. We pay for this service with tax dollars because we want to enjoy the outdoors during the summer months. Don't write rules that will prevent our district from fogging when we have so many mosquitoes that we need to call for their help.

Sincerely,

Sheila Gordon  
2311 LANG ST.  
Longview, WA. 98632

Without the mosquito control district in our area, I would be at a loss. In past years, I've had a real problem with these pests (mosquitos) I called & they responded & took care of the problem. They check with me every year & come up & do what they have to to make sure my pets & myself are not eaten alive. So please reward the permit.

Sincerely,  
Sheila Gordon
