WATER QUALITY PROGRAM

Mr. John Jennings,

This letter is a request to allow the spraying of Adult Mosquito, Nuisance and Vector Mosquitos by our local Mosquito Districts.

Our entire way of life is affected by the Mosquito. We love being outside. The Mosquito seems to love my flesh and I have to put on all kinds of protection or stay inside. We live in Marine View Heights above the Potholes Reservoir. Everything in our area is affected by the Mosquito. The Parks and Golf Course cannot stay in business when Mosquitos are biting their customers. The threat of West Nile is everywhere.
