Dear, Mr. Jennings

I think that the mosquitoes should be controlled as soon as possible because Burbank is surrounded by water if mosquitoes are not controlled then the people can get sick and animals can die from West Nile Virus. When I was 1-9 years old I lived in the South in Alabama and they didn't do a good job on controlling the mosquitoes so everyone who was outside for more than 30 minutes would have a lot of mosquito bites on their legs and arms it was not fun going outside and getting the blood sucked out of you from mosquitoes. What I would like to see happen is to control the mosquitoes and the disease that they carry. Thank you for your work.

Regards,
