Subject: Ecology Aquatic Mosquito Control NPDES Draft General Permit
Date: Wednesday, March 17, 2010 3:27:25 PM

I support our local mosquito control dist. and the job they do. Although they agree we need this permit, there are some areas of concern.

Both nuisance and vector mosquitoes need to be controlled.

Eliminate the term "waters of the state".

Eliminate Malathion and Nalid restrictions from the permit.

Thank you for your time,
