Jon,

Ive been a resident of Coullitz County for 50 years, and worked for Wa DNR as a check cruiser in the woods 85% of the time. I know what its like to be bitten by mosquitos. I am 65, retired and like to be outside enjoying our short summers. I am requesting that the permit would be reworted so we can have mosquito control when needed.

Thanks, Jim

PS. Our neighbors the Mastersons have multiple junk cars and contribute to our mosquito problems. The residents on Kingsbury road have delt with this problem since the 40's.
