I live in Horn Rapids outside of Richland Washington. Over the hill is the Yakima river and a LARGE privately owned game reserve. In the summer evening you can see the swarms of mosquitoes coming over the hill and into all of our yards and homes. The first year that I lived there it was miserable EVERY single night!!!!

Then we called in and the mosquito control and the folks got a hold of the problem. Last year they ever had to fly over in a plan to keep it down to a bearable limit.

Any restrictions on mosquito control in this area will make life miserable and should not be allowed!!!!!!
