Importance: High

Mr. Jennings,

As a resident of Kennewick, I am strongly opposed to the new permit implications. My family enjoys the time we spend outdoors, and the recreation life in this area is a big reason why we have chosen to make this our permanent home. Not allowing the Mosquito Control District to properly fog and control mosquitoes will significantly impact our quality of life. We live near an irrigation canal, and are greatly affected by mosquito outbreaks. I support our local Mosquito Control District. Excessive mosquitoes will impact our health, our quality of life, recreation and will have an economic impact on our community resulting from visitors not wanting to spend time in mosquito-infested areas.

Thank you,
Shannon Haselhuhn
Kennewick, WA
