Comments:

1. Do not separate nuisance and vector mosquitoes, both absolutely **NEED** to be controlled.
2. **Eliminate** the use of the term “**waters of the state**”.
3. Change the current language to allow organized mosquito control districts under Chapter 17.28 RCW to aduicide to control vector and nuisance mosquitoes as listed in the districts Integrated Pest Management Plan.
4. **Eliminate** Malathion and Nalid **restrictions** from the permit.
5. I thoroughly support mosquito control districts. Excessive mosquitoes will impact me and my families health, quality of life, use of parks, recreation and an economic impact on our community.
6. We have an irrigation pond right directly behind our house that supplies all of our irrigation water. Last year the mosquitoes were bad even with the fogging, and I can't imagine what it would be like without mosquito control. We definitely need, no, REQUIRE a need to control vector and nuisance mosquitoes in our neighborhood – and everywhere.
