---

1. Do not separate nuisance and vector mosquitoes, both need to be controlled.
2. Eliminate the use of the term "waters of the state".
3. Change the current language to allow organized mosquito control districts under chapter 17.28 RCW to adulticide to control vector and nuisance mosquitoes as listed in the districts Integrated Pest Management Plan.
4. Eliminate Malathion and Nalid restrictions from the permit.

I support mosquito control districts. Excessive mosquitoes will impact our health, quality of life, use of parks, recreation and an economic impact on our community and at Hanford.
