Tuesday, November 10, 2009
8:30 a.m. – 3:00 p.m.
Federal Way Aquatic Center

Agenda

Thank you for being willing to share your collective wisdom, ideas, comments, and perspectives with the Stormwater Work Group. We appreciate your willingness to help us develop a new regional stormwater monitoring and assessment strategy.

We hope to accomplish two things today:

- 1) Share the draft of Volume One of our work – the Stormwater Monitoring Framework, and listen to your comments and feedback on that draft document.
- 2) Get your advice on Volume Two of our work – the Implementation Plan.

Please listen to the presentations and use the discussion guides to organize your opinions. We value your feedback. Thank you again for coming today!

* * * * *

8:30	Coffee and Networking	Everyone
9:00	Welcome, Introductions: Overview of the Day	Margaret Norton-Arnold, <i>Facilitator</i>
9:10	How This Effort Will Help Us Recover Puget Sound	David Dicks, <i>PSP Executive Director</i>

2:00	Break	
2:15	What Did We Hear?	Work Group Members
2:40	Any Final Comments?	All Attendees
2:50	Next Steps and Adjourn	Jim Simmonds

**Driving directions to the
Weyerhaeuser King County Aquatic Center Banquet Hall
650 SW Campus Drive, Federal Way 98023**

From either north or south: take I-5 to exit 142B, merge on to Hwy 18 west, toward South 348th St, which becomes SW Campus Dr. Continue on Campus Drive. The facility will be on your right approximately 2.3 miles from I-5.
