Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Justin Jodi. I live in Seattle.

I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. It effects my community.
2. It hurts the fishes that me and my family eats.
3. Native Americans culture is ruined. They have no food.

I [agree/disagree] with more people in the proposed standards. I [agree/disagree] because being able to die from cancer
some people have no
choice but to eat the fish

Cheryl Niemi and Angela Chung

March 10, 2015

Page 2

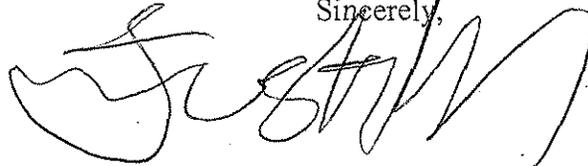

and it's unfair that they
have to get cancer.

I also agree / disagree with more people
being able to eat fish in the proposed
standards. I agree / disagree because
they more people get food
and food is good.

I ask that the Washington Department of Ecology change / redo / finalize the standards so
that everyone is happy and
healthy.

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

[print name here and sign above]

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Adan McKusg. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I live in Seattle.

2. I like to swim.

3. I don't eat fish but I have friends who do

4. I have a friend whose grandfather got cancer and it was really hard for him.

I [disagree] with the new cancer rate in the proposed standards. I

[disagree] because I have a friend whose grandfather got cancer and it was really hard for his entire family and I don't want anyone to go through that.

I also [agree/disagree] with The grams of in the proposed standards. I [agree/disagree] because fish consumption per day. I know people who love to eat fish, but I think it could lower.

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that they the cancer rate is at least 1/500,000.

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

Aidan McHugh

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Mary Mary. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. my grand parents eat alot of fish
2. I eat fish
3. I don't want people getting sick

I [disagree] with poisonous levels of fish in the proposed standards. I [disagree] because I don't want ~~me and~~ people getting sick

I also [agree/disagree] with _____ in the proposed standards. I [agree/disagree] because _____

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that the chance of people who eat a lot of fish, getting sick is lower

Thank you for the opportunity to submit comments on this important matter.

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Frank Higley. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I like eating fish.
2. I like to swim.
3. I like salmon in general

I agree disagree with the cleanup in the proposed standards. I
 agree disagree because the Duwamish needs clean water
so that we can swim, fish, eat, drink and play

in the river.

I also ~~agree~~ ~~disagree~~ with the same or rate in the proposed standards. I ~~agree~~ ~~disagree~~ because I think it puts the rate in what it really is.

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that _____

Thank you for the opportunity to submit comments on this important matter.

Sincerely, Frank Higley

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Harry Bush. I live in Seattle.

I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I used to do a lot of swimming and I think people should be able to swim in natural water without having a health hazard.
2. It could cause damage to the fish population.
3. It could make people get badly sick.

I agree / disagree with the clean up of the river in the proposed standards. I

agree / disagree because if we clean it up then there will be more fish which is a big food supply.

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Jack Houlihan. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. The polution limits the ammount of food people can eat,
2. The polution limits the amount of further generations of fish because the polution kills them
3. The polution limits recreation like swimming and fishing.

I agree disagree with the amount of fish you can eat in the proposed standards. I agree disagree because the amount of fish will decrease the population and increase risk of cancer and sickness

I also [agree/disagree] with _____ in the proposed standards. I [agree/disagree] because _____

I ask that the Washington Department of Ecology [change]redo/finalize] the standards so that 100 grams can be eaten limiting the amount of fish to preserve fish yet ensure people can eat and sell it to support there families

Thank you for the opportunity to submit comments on this important matter.

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Wally Bageron. I live in Seattle, Washington.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I know that pollution is sickening people who are innocent.
2. Fish is a big market in Seattle.
3. People should have fun in water (swimming, splashing, etc.)

I [agree/disagree] with the statistic that 1/100,000 people ~~can~~ get cancer from water pollution. in the proposed standards. I

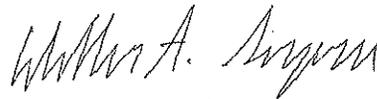

[agree/disagree] because Cancer is a bad disease and nobody should get it for doing essential things of life.

I also [agree/disagree] with the proposal of a bigger amount of fish as an average in the proposed standards. I [agree/disagree] because people should be able to eat what they want and what they have available to them

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that people do not get sick for doing what is essential to live.

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Christina Serkowski I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I eat fish!

2. I have a three-year-old son.

3. Health is the most important thing any of us have. The proposed standards will harm many people's health.

I [disagree] with the # of cancer cases in the proposed standards. I

[disagree] because increasing the number of cases allowed is a step in the wrong direction.

This is a matter of not only environmental justice, but of social justice - for our generation and those to come. You are deciding more people can get cancer from toxic water. What?!

I also disagree with increasing the number ^{of fish people eat per month.} in the proposed standards. I disagree because especially with health programs and our national fight against poverty, many more people eat fish regularly - several times a week - in addition to those who eat it daily, for economic or cultural reasons

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that the standards truly represent an ethical and moral change for the better... not just the status quo... or worse,

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

[print name here and sign above]

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Jenny Vrentas. I live in Edmonds.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I really like to swim.

2. Fishing is fun and my family eats it too.

3. 

I [disagree] with cancer rates in the proposed standards. I

[disagree] because I think everyone should proper care.

I also [agree/disagree] with _____ in the proposed standards. I [agree/disagree] because _____

I ask that the Washington Department of Ecology ~~change/redo~~^{and} ~~finalize~~ the standards so that people can swim and eat fish without getting cancer

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

Jenny Vrentas

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is David Abronsowitz. I live in Seattle.
 I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. Fishing is very important for many people.
2. Water is vital
3. People shouldn't have to worry about these diseases

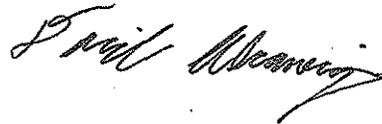

I agree/disagree] with raising the amount of in the proposed standards. I
fish people eat
 agree/disagree] because It's really hard to classify people in one group
and I'm glad that more people can identify with this
number.

I also [agree/disagree] with lowering the cancer
rates. in the proposed
standards. I [agree/disagree] because lowering the cancer rates
cancel out such
that the two changes cancel out & won't bring change.

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so
that the cancer rates are more realistic.

Thank you for the opportunity to submit comments on this important matter.

Sincerely,

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Nate. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. Poor people sometimes have no choice
2. Indian tribes have a culture that involves fish
3. Kids like to swim in water

I agree/ disagree with cancer rates lifting in the proposed standards. I

agree/ disagree because people will think it is a larger risk and do more about it.

Re: Washington State Draft Water Quality Standards Rule: Human Health Criteria

Dear Ms. Niemi and Ms. Chung:

My name is Max. I live in Seattle.
I am writing to you about Washington's proposed Water Quality Standards for protecting human health, especially for protecting eating fish.

I care about this issue because:

1. I eat local Ivar's Fish & Chips

2.

3.

I [agree/disagree] with Polutant level in the proposed standards. I

[agree/disagree] because everyone should live as long as they can

I also [agree/disagree] with amount of fish in the proposed standards. I [agree/disagree] because Some people eat more fish than that

I ask that the Washington Department of Ecology [change/redo/finalize] the standards so that people can eat more fish and chips with out risking there lifes

Thank you for the opportunity to submit comments on this important matter.

Sincerely,
