

**APPENDIX 2 – Total Maximum Daily Load Requirements**

*Note:* In the final permit, this appendix will contain the list of all Total Maximum Daily Loads (TMDLs) in eastern Washington that include more specific requirements than those found in this permit. At the time of release of this final draft permit, Ecology had not identified any applicable TMDLs with more specific requirements than those found in this permit. See the Fact Sheet for additional information. A complete list of all applicable TMDLs in eastern Washington and the potential Permittees that each TMDL applies to is included in the Fact Sheet for this permit. The list reflects all the TMDLs for which compliance with the permit constitutes compliance with the TMDL.
