

Thank you. My name is Norm Siler. I work with the Union Pacific Railroad. My mailing address is 5424 Southeast McLaughlin Blvd, Portland, OR. Zip is 97202. My comments have to do with actually a footnote that was added to the second draft of the permit in Table 1, where we had asked for clarification of what is covered under railroad activities. A footnote was added. However, there appeared to be some conflicts and apparent ambiguity throughout the document that seemed to conflict with what specific industrial activities are going to be covered at a rail facility. I'd like the Department of Ecology to address that if they could and make it more clear. Thank you.
