Olympia, WA 98504-7600

Dear Mr. La Spina:

The Manufacturing Industrial Council is a non-profit association that represents traditional industrial companies throughout greater Seattle. Many of our members operate in industrial shoreline areas and we are concerned about the issues regarding the Draft Industrial Stormwater General Permit that are articulated to you in the April 19, 2007 letter from CityIce Cold Storage Company President Kim Suelzle. We look forward to working with your agency on this topic in the future.

Sincerely,

Dave Gering, Executive Director, Manufacturing Industrial Council of Seattle
