

**Department of Ecology—Water Quality Program
Development of Low Impact Development (LID) Standards
for the Municipal Stormwater General Permits**

**Technical Advisory Committee Meeting #1
November 2, 2009, 10:00am–3:00pm
WSU-Puyallup-Allmendinger Building**

- 10:00 Introductions and Agenda Review
- 10:15 Ecology thoughts on permit requirements based on performance standards and related Committee input
- Relationship of: LID Goals – Implementation Scales – Performance Standards by Land Use types – Applicable LID Techniques and Principles (discussion of Ecology draft diagram)
- 11:00 The definition of Low Impact Development
The ultimate goal of LID— overall objectives
- 12:15 Public input on issues discussed this morning
- 12:30 LUNCH - Everyone attending the meeting should bring a sack lunch** that does not require reheating. There are NO locations to purchase lunch readily available.
- 1:00 LID Techniques and Development Principles that can be used to achieve overall objectives
- What functions do they provide?
- Which apply to the site/subdivision scale, which to basin/watershed scale?
- Approach for upcoming discussion of barriers, feasibility, performance standards
- 2:30 Public input on issues discussed this afternoon
- 2:45 Next Meetings—Logistics, Schedule, Locations
- 3:00 Adjourn**

**Location: WSU Puyallup - Research and Extension Center
Allmendinger Building**

2606 West Pioneer (formerly 7612 Pioneer Way East) just west of downtown Puyallup

Directions and map provided on the back

From the North:

- Take I-5 south to exit 135 to WA-167 N (28th St). This exit will put you onto Bay Street that goes back under the freeway and connects to River Road. Get in the right lane.
- Turn right onto Pioneer Way E. at the intersection where the road splits.
- Continue on Pioneer Way E. This curves around and comes to the intersection at Canyon Road and Pioneer Way E. Here, Pioneer Way E turns into Pioneer Ave E.
- Continue on Pioneer Av E to the next light. This is the intersection of Pioneer Way, 72nd, and Woodland Ave. Turn left at this intersection. Immediately get in the righthand lane.
- The WSU entrance is just past the old gray and crimson colored Victorian house on the right.

From the South:

- Take I-5 north to exit 127 (Puyallup-Mt. Rainier) onto Hwy 512 East.
- Take the 4th Puyallup exit (Pioneer Way).
- Turn left on Pioneer Way heading west.
- Go 2 miles through Puyallup (from Meridian go through 3 stop lights). There is a sign with Washington State University Research & Extension Center on the left just past Fruitland Ave.

Building Location:

We will be meeting in the Allmendinger Building.

- Turn south off Pioneer into the main campus.
- Drive straight ahead and follow signs for Allmendinger parking.
- The Allmendinger building is down the stairs beside the first building on the right as you enter the campus.
- If you can't find the Allmendinger building go to the Admin building (first building on left as you enter the campus) and ask for directions.
