RE: Letter of Support for Regional Monitoring in Southwest Washington

Bill Moore,

The City of Washougal acknowledges there will be stormwater monitoring requirements when the NPDES Phase II Permit is re-issued. We believe there is benefit from conducting monitoring with other jurisdictions from SW Washington that address our specific conditions. Clark County and the other NPDES Stormwater Permittees from SW Washington are currently working on a proposal for regional monitoring that will meet the requirements of the permit. We look forward to continued support from the Department of Ecology on these efforts.

Respectfully,

David Scott
City Administrator
City of Washougal
