Dear Dept. Of Ecology,

I would like to take this opportunity to express my support for the new proposed storm water rules. I fear special interests only concerned with maintaining the status quo will have a louder voice than those of us who wish to enjoy cleaner waters in WA.

I hope that your department will have the courage to move forward with rules that protect our residents as well as our ecosystem. Now is the time to begin reenvisioning how we do business and with a regulatory push the changes will not take place.

Thank you for you time and consideration.

Regards,
Duncan Clauson
