This \$5 per month fee is a joke; the whole way it was imposed on the citizens of Asotin county is a joke. The way DOE went about counting people in Idaho and Washington, on both sides of the Snake River to qualify Asotin County as an urban area - a joke. The way our county commissioners rolled-over on the it's tax-paying residents - well, you get the point - another joke. I will not be a part of any Obama-esque shenanigans imposed by the feds.

Very sincerely,
Kendall Peterson
