

# City of Snohomish: Receiving Waters Visual Screening

## Requirements:

Visit outfalls annually during dry weather periods. At least one full week of dry weather should precede the screening visit. Each outfall should be inspected for flow, odor and presence of sheen. Also check for evidence of any other type of discharge such as soap, grease, etc.

## Screening locations:

### Cady Park outfall to Snohomish River

Date	Flow	Odor	Sheen	Other
