

## **APPENDIX 2 – Total Maximum Daily Load Requirements**

*Note:* This appendix serves as a placeholder for future Total Maximum Daily Loads (TMDLs) in eastern Washington that include more specific requirements than those found in this permit. At the time of permit issuance, Ecology had not identified any applicable TMDLs with more specific requirements than those found in this permit. See the Fact Sheet for additional information. A complete list of all applicable TMDLs in eastern Washington and the potential Permittees that each TMDL applies to is included in the Fact Sheet for this permit; that list reflects all the TMDLs for which compliance with the permit constitutes compliance with the TMDL.
