

APPENDIX 3 – TMDL Requirements

Note to reviewers: This Appendix will contain the list of all TMDLs in eastern Washington that include more specific requirements than those found in this permit. The potential permittees that these would apply to will listed with each TMDL. A complete list of all applicable TMDLs in eastern Washington will be included in the Fact Sheet for the Permit. The complete list will reflect all the TMDLs for which compliance with the permit constitutes compliance with the TMDL. At the time of release of the preliminary draft of this Permit, Ecology had not identified any applicable TMDLs with more specific requirements than those found in this permit. See the Fact Sheet for additional information.
