

Fact Sheet Appendix D – List of TMDLs reviewed for this Draft Permit

U.S. Environmental Protection Agency-Approved Total Maximum Daily Loads (TMDLs) and other TMDLs that could be completed before this permit is issued				
Water body	Parameter(s)	Potentially Affected Phase II jurisdiction(s)	Stormwater Management Requirements	Date(s) approved
Crystal Creek	Chlorine; Ammonia-N; Fecal Coliform; BOD-(5-day)	WSDOT	None	1993
Giffin Lake	Phosphorus	Yakima County	Possibly	<i>Targeted for 2007</i>
Granger Drain	Fecal coliform bacteria	Yakima County	None	2001
Hangman Creek (Latah Creek)	Phosphorus, fecal coliform bacteria, suspended sediment	Spokane, Spokane County, WSDOT	Expected	<i>No target date set</i>
Lake Chelan	Phosphorus; DDT, PCB	Chelan County, WSDOT	Yes; Expected	1993; & <i>targeted for 2006</i>
Liberty Lake	Nitrogen, phosphorus	Spokane County, Liberty Lake	None	1993
Little Klickitat River	Chlorine & BOD (5-day); temperature	WSDOT	None	1993; 2003
Little Spokane River	pH, dissolved oxygen, temperature, fecal coliform bacteria	Spokane County, WSDOT	Probably not	<i>Targeted for 2006</i>
Lower Yakima River	Suspended sediment, turbidity, and DDT	Yakima County	None	1998
Moses Lake	Phosphorus	Moses Lake, WSDOT	Possibly	<i>No target date set</i>
Naches River	Temperature	Yakima County, WSDOT	Expected	<i>Targeted for 2006</i>
Okanogan River	DDT, PCBs	WSDOT	Yes	2005
Selah Ditch	Ammonia, chlorine, fecal coliform bacteria, dissolved oxygen, biochemical oxygen demand, temperature	Selah, Yakima County	Expected	<i>Targeted for 2006</i>
Similkameen River	Arsenic	WSDOT	None	2004
South Fork Palouse River	Ammonia; pH, fecal coliform bacteria, dissolved oxygen, & temperature	Pullman, WSDOT	None for ammonia (1994); expected for other parameters	1994; & <i>targeted for 2006-2007</i>
Spokane River	Metals; dissolved oxygen & phosphorus; PCBs	Millwood, Spokane, Spokane Valley, Spokane County, WSDOT	None; not currently expected; not expected	1999; & <i>target dates not set</i>
Teanaway River	Temperature	WSDOT	None	2002

Fact Sheet Appendix D – List of TMDLs reviewed for this Draft Permit

Water body	Parameter(s)	Potentially Affected Phase II jurisdiction(s)	Stormwater Management Requirements	Date(s) approved
Upper Yakima River	Suspended sediment & organochlorine pesticides; temperature	Ellensburg, WSDOT	None for sediment & pesticides (2004); expected for temperature	2002; & <i>targeted for 2006</i>
Wenatchee River	pH, dissolved oxygen, temperature, DDT, fecal coliform bacteria	Wenatchee, Chelan County, WSDOT	Expected	<i>Targeted for 2006</i>
Wilson Creek	Fecal coliform bacteria	Ellensburg, WSDOT	Yes	2005
Yakima Area Creeks (Wide Hollow Creek, Moxee Drain, & Cowiche Creek)	Fecal coliform bacteria	Yakima, Yakima County, Union Gap, Moxee, WSDOT	Expected	<i>Targeted for 2006</i>
Yellowhawk, Garrison, and Mill Creeks	Chlorinated pesticides & PCBs; pH, dissolved oxygen, fecal coliform bacteria, & temperature	Walla Walla, WSDOT	Expected	<i>Targeted for 2006 & 2006-2007</i>
