

NPDES Preliminary Draft Permit

APPENDIX 4

The following categories of non-stormwater discharges of flows shall only be addressed where such discharges are identified by the municipality-Permittee or Ecology as significant sources of pollutants to waters of the state:

~~**Lawn watering and Landscape irrigation**— Provided that conservation programs to minimize this type of discharge are in place.~~

~~**Diverted stream flows**— Provided that all necessary permits or authorizations are received prior to diverting the stream flow.~~

Rising ground waters

Untaminated ground water infiltration (as defined at 40 CFR 35.2005(20)) to separate storm sewers

Untaminated pumped ground water

~~**Water line flushing and discharges from potable water sources**— Provided planned discharges from water lines and potable water sources shall be dechlorinated, pH adjusted if necessary, reoxygenated, and volumetrically and velocity controlled to prevent resuspension of sediments. Water that has been hyperchlorinated shall not be discharged to municipal separate storm sewers, even after de-chlorination.~~

Foundation drains

Air conditioning condensation

Irrigation water

Springs

Water from crawl space pumps

Footing drains

Flows from riparian habitats and wetlands

~~**Dechlorinated swimming pool discharges**— Provided discharge to a sanitary sewer is not available. Swimming pool discharges shall be dechlorinated, pH adjusted if necessary, reoxygenated, and volumetrically and velocity controlled to prevent resuspension of sediments. Cleaning waste water and filter back wash shall not be discharged to municipal separate storm sewers. Water that has been hyperchlorinated shall not be discharged to municipal separate storm sewers, even after de-chlorination.~~

~~**Street wash water**— Provided street wash waters shall be dechlorinated prior to entry into the MS4. At active construction sites, street sweeping must be performed prior to washing the street.~~

Individual residential car washing

[NOTE TO ECOLOGY: The qualifying statements for the non-stormwater categories listed above have been removed to match 40 CFR 122.26(d)(2)(iv)(B)(1), which only lists the categories by name. Individual residential car washing is specifically listed in 40 CFR 122.26 and is included to allow permittees to address

NPDES Preliminary Draft Permit

this category if necessary, rather than to prohibit the category altogether, as in the preliminary draft permit.]
