Carly,

Attached is the draft lake summary with comments from both Fred Bergdolt and I. Our comments are relatively minor, as your draft was well written and not overreaching as far as the utility of the lake data for assessing effectiveness on the lake from these retrofits along Hwy 99.

If you have any questions, just ask.

Thanks,

Brandi Lubliner, PE | RSMP Coordinator | Dept of Ecology – Water Quality Program

Hi Brandi,

Attached is deliverable D3.1, the Draft Tech Memo: Summary of Echo Lake Historical Data. Appendix A is included as a pdf. Please send comments by October 26th.

Please note, the current Figure 1 includes sub-basin drainage areas, and I've decided to replace this with a new map including just the overall basin boundary (in progress).

Thank you,
Carly
