

Dungeness Water Working Group
Audubon River Center
4th Friday of each month
10:00 AM-2:30 PM

Agenda for February 22, 2008

Time	Topic	Outcome
10:00-11:30	<p>Crop duties for Dungeness Basin</p> <p>Quantity of irrigation water required for 1/12 acre, ¼ acre, ½ acre and 1 acre lawns.</p> <p>Differences in application efficiencies.</p> <p>Irrigation efficiencies (timers, efficient irrigation systems, soil moisture monitors)</p> <p>Calculations of how far ½ cfs in the water bank might go in different situations.</p>	<p>Looked over the crop duties for Sequim from the Washington Irrigation Guide. Joe Holtrop said that soil type doesn't cause a demand for <u>more</u> water--it means that watering has to occur more <u>frequently</u>.</p>
11:30-12:00	<p>Potential conditions or restrictions for the water exchange and range of options:</p> <p>In-house use only.</p> <p>Restricted lawn acreage.</p> <p>Intensively managed new residential irrigation.</p>	<p>Discussed the range of options from 14 new 2 acre farms to over 2,500 new in-house use only homes for the same quantity of water.</p>
12:00-12:30	Lunch	
12:30-1:30	Hypothetical family situations and their conditions or range of options	<p>Reviewed the most typical scenarios that come up. Discussed several others that weren't on the list. Discussed ways to encourage cluster development, including financial incentives when accessing the water exchange.</p>
1:30-2:30	<p>Workshop topics</p> <p>Workshop date: March 26, 2008</p> <p>John Wayne Marina</p> <p>4:00 P.M.-7:00 P.M.</p>	<ul style="list-style-type: none"> • How can we advertise to get more people affected by the rule at the workshop? • Have Washington Water Trust at our next workshop • A poster describing how other communities have <u>not</u> experienced a proliferation of

		<p>new exempt wells being drilled prior to rule adoption</p> <ul style="list-style-type: none"> • Hypothetical families: tell us about your situation • Presentation Q&A (one-on-one for questions on specific situations or group discussion of general or common issues) • Have cards at each station for people to fill out • Stand up exercise: do you have a private well, are you on a community system, “You will not be impacted by this rule.” • Poster on where water bank water would come from • Climate change poster—we can’t say for sure what will happen, but there is nothing to make us believe things are improving • Artificial aquifer recharge poster • Reclaimed water • Closures • Be clear on what creates the actual priority date of well. • Put taped dimensions of various sizes of lots on floor, or parking lot.
