RE: Extension of Trust Water Donation CS4-23863C

Dear Mr. and Ms. LaCasse:

The purpose of this letter is to accept your request for a second two year extension of the above referenced donation to Ecology's Trust Water Program. The donation consists of 0.17 cubic-feet per second and 38.73 acre-feet per year to benefit instream flow in the Columbia River.

The new expiration date for this donation is October 31, 2016.

If, prior to the new expiration of this temporary donation, you would like it extended for an additional period of time, please send us a written request referencing the application number above. Also, if you wish to modify any terms of your donation, your request must include the new terms. Requesting a longer donation period for any subsequent extension requests may be advantageous if you have no plans to use the water in the near future. To remove the water right from Ecology's Trust Program simply requires a letter to Ecology's Central Regional Office requesting its removal from the program.

If you have any questions, please feel free to contact Patricia Kirk with Ecology's Office of Columbia River at (509) 249-6299 or by e-mail at pkir461@ecy.wa.gov.

Sincerely,

Mark C. Schuppe, Operations Manager
Office of Columbia River

19023 37th Avenue NE
Lake Forest Park, WA 98155-2717

Dear Mr. Lacasse:

The purpose of this letter is to acknowledge Department of Ecology's acceptance of your donation to the Washington State Trust Water Rights Program. The trust water right has been assigned the control number **CS4-23863C**. Please refer to that number when corresponding with us about this trust water right.

The Department of Ecology, pursuant to RCW 90.42.080(1)(b), acknowledges your donation of 0.17 cubic-feet-per-second and 38.73 acre-feet per year from fallowing 8.42 acres. The purpose of the donation is to benefit instream flow in the Columbia River beginning at about River Mile 525 and terminating at the Pacific Ocean. The term of your donation is from June 9, 2010 to October 1, 2012.

This trust water right expires on October 1, 2012.

The parent water right, S4-23863C, authorized the withdrawal of 0.40 cubic-feet-per-second, up to 92 acre-feet per year for the irrigation of 20 acres during the irrigation season and up to 2 acre-feet per year for continuous domestic use. The recorded place of use is located within NWNE of Section 31, T. 30N., R. 24 E.W.M.

Section 90.42.080 provides in part that the total of any portion of the water right remaining with the donor plus the donated portion of the water right may not exceed the extent to which the water right was exercised during the five years before the donation.

In accordance with RCW 90.42.040(6), RCW 90.14.140(h), and RCW 90.14.215, a water right is not subject to relinquishment while it is managed within the Trust Water Rights Program.

Ecology's acceptance of the donated water right into the Trust Water Rights Program is not evidence of the validity or quantity of the right. When the period of trust ends, the water right will revert back to the water right holder or landowner in the full quantity accepted into the trust water program and for the original purposes.

If, prior to expiration of this temporary donation, you would like to extend the temporary donation, please send us a written request. Also, if you wish to modify any terms of your donation, your letter must include the new terms. Ecology will review your request and any new or modified terms and conditions and will notify you whether the donation can be extended.

If you have questions or concerns, please call Gary Steele at (509) 249-6299.

Mr. Lacasse
