CONSUMPTIVE USE CALCULATION:

Consumptive use calculations are based on Washington Irrigation Guide (WIG) for pasture, which represents the most recent historical use.

**WATER RIGHT # 2:** The water right authorizes 220 AF/year authorized for 55 acres. This equals 4 AF per acre water duty (220 AF per year/55 acres).

Consumptive use estimates are calculated as follows based on irrigation May 1 – September 15:

Crop Irrigation requirement (CIR) for Pasture = 18.11 in/acre annually or 1.51 AF/acre/year.
Total Irrigation Requirement (TIR) = CIR/Ea  Ea for sprinkler irrigation is 75%.  TIR = 1.51/.75
= 2.01 AF per acre x 55 acres = 110.7 AF/year TIR
% Total CU = Ea + % Evap for sprinkler = 75 % + 10% = 85%
Total CU = 85% x TIR = .85 x 110.7 = 94.12 AFY.

**WATER RIGHTS # 3-6:** The water rights authorize 355 AF/year authorized for 90 acres. This equals 3.94 AF per acre water duty (355 AF per year/90 acres).

Consumptive use estimates are calculated as follows based on irrigation May 1 – September 15:

Crop Irrigation requirement (CIR) for Pasture = 18.11 in/acre annually or 1.51 AF/acre/year.
Total Irrigation Requirement (TIR) = CIR/Ea  Ea for graded furrow irrigation is 65%.  TIR = 1.51/.65 = 2.32 AF per acre x 90 acres = 208.8 AF/year TIR
% Total CU = Ea + % Evap for graded furrow = 65% + 5% = 70%
Total CU = 70% x TIR = .70 x 208.8 = 146.16 AFY.

NARRATIVE DESCRIPTION OF PROJECT:

WR #’s 2-5: Three-year donation of water rights on the Teanaway River and NF Teanaway River.

WR #6: Three-year donation of water right on Indian Creek.

American Forest Holding, LLC is the holder of seven water rights in Subbasin No. 3, Teanaway River. Trout Unlimited Washington Water Project is seeking to temporarily place the irrigation portion of five of the water rights into the Washington State’s Trust Water Rights program, for the 2011-2013 irrigation seasons. The purpose of use under these changes is for instream flow from the historic point of diversions on the Teanaway, NF Teanaway River and Indian Creek to their confluences with the Yakima River. The owners of the water right will not irrigate any lands under these water rights during this time. Upon the approved Order Pendente Lite from Yakima County Superior Court, we will be requesting the Department of Ecology place this water right into the State’s Trust Water Right Program.

These water rights were approved by the WTWG and by the Yakima County Superior
Court in 2010 for placement into the Trust Water Rights Program.

*A map showing the locations of all of the water rights will be provided at the meeting; it was too large to attach to this document.*
