Water Right Certificate Number: _____

Name on Certificate: _____

- Attach a copy of property transfer deed, contract, or other documentation indicating division of land and appurtenant water rights.

PROPERTY OWNER AGREEMENT

1. Signatories agree to the division of the subject right consistent with the apportioning presented herein. Agreement of this apportioning reflects the historic beneficial use of water on the property.
2. It is the responsibility of each property owner to verify that his or her "share" of the original right reflects the historic beneficial use of water on his property. If, after a superseding document is issued by Ecology, it is determined that the historic beneficial use of water on that property is less than the quantities agreed to herein, Ecology shall reduce said quantity to the portion put to beneficial use on that property.
3. The division of the original right into superseding documents shall not be construed as validation as to the extent and validity of the original right. The amounts authorized on the superseding portions of said right are not confirmed in this division. The actual amounts authorized on the superseding documents are subject to the historic beneficial use on the appurtenant property.
4. Each property owner shall be responsible for payment of fees associated with the issuance of superseding certificates. All required fees must be received by Ecology prior to issuance of the superseding certificates.
